Khrushchev Rumor

COPENHAGEN—A source in Stockholm said a manuscript by Nikita Khrushchev—possibly his memoirs—has secretly reached the West.

Danish sources linked the story tentatively with Soviet journalist Victor Louis, who stayed here Aug. 20-27 and had meetings with the chief news editor and the Moscow correspondents of Time and Life, which, the Danish press said, were to arrange a news deal of international interest. It was Louis who gave the world the first news of Khrushchev's fall.
